

Login

At the OMS login page, enter your personal user name and your private password then click the 'Sign In' button.

OMS Layout

Below you see the first screen that appears when you log into OMS. Familiarize yourself with the layout of OMS before continuing to wish for your options.

Navigation Bar

The Catalog of Options

Cut Off Date	Category	Choice	Option No	Description
01/21/2005	Plumbing			
01/21/2005	Structural			
01/31/2005	Flooring			

The screen that you log on to shows an artists rendition of one plan elevation next to the Cut-Offs table. Below the Cut-Offs table and plan image is the [Option List](#) button. This button will show you all the options that are available for your new home in Adobe Acrobat format that you can easily print. You will wish for options in the Catalog of Options. To see your list of wishes, click the 'Wish List' button on the dark gray navigation bar.

The Catalog

Below the Option List button is a collection of Categories that make up the catalog that you can browse and wish for upgrades to your new home.

Simply click on the image above the name of the category that you would like to see more choices in.

If you click on the Appliances image, you will then see your choices of "Standard Appliances", "Refrigerators", and many other choices available in your home.

Click the choice image to enter the choice and see a list of options you have in that choice.

Wishing for an Option

When you see an option that you are interested in, click the 'Wish' button to add it to the list of options that you are considering. Options can only be ordered for your new home when you are with your designer.

Once you click the Wish button you will be redirected to the "Wish" page where you can enter quantities, location, color and any note that may be required, shown below. Click the 'Save Wish' button to add this item to your wish list.
